- Outstanding customer service
- Single-source value

Hook & Loop – Economical, Reclosable Fasteners

Self-adhesive customisation

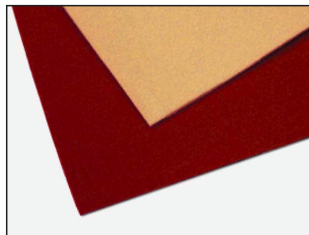

Adhesive coatings are available to meet your substrate, environment and cost requirements in acrylic and rubber bases. This product is available in 6 mm – 100 mm widths. A variety of other hook & loop products – including plain-back and low-profile among others – are also available.

Self-adhesive hook & loop

Perfect-mating loop products

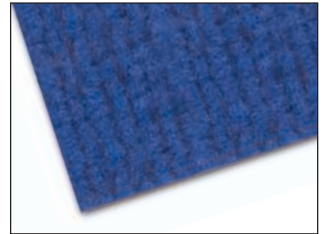

NyLoop is 100% nylon fabric with or without polyester foam backing. Its bright colors are excellent for displays, exhibits, partitions, bulletin boards, wall coverings, instrument cases, furniture, toys and more. This product readily engages with Velcro-type hook fasteners for display and structural purposes. Its thin profile is ideal for tight channel exhibit frames. The foam core gives superior sound absorption and cushioning so important in tradeshow exhibits and office partitions.

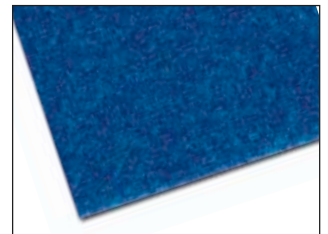

NyLoop fabric

Rib-textured Front Runner and random velour finish Prelude are rugged loop fabrics ideal for tradeshow booths. Both readily accept any Velcro-type hook fastener. They are designed to coordinate with a "mix and match" ability. Or use them individually. Thick nylon and polyester fiber blend gives these products superior resistance to pressure marks, abrasion, static and mildew.

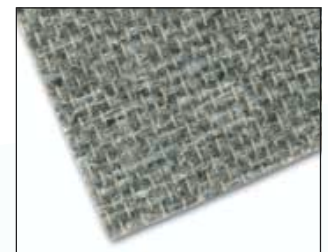

The variegated appearance of Polyweave is an attractive, durable fabric for all types of display panels. This 100% polypropylene woven product readily accepts any Velcro-type hook fastener. Its texture is ideal for hiding dirt, dents and other marks that result from repeated use.

LocMag Magnetic Strip – More Power, Better Adhesive

50% more holding power

Lockfast LocMag magnetic strip is superior to most conventional brands now available in the marketplace. Why? Because our magnetic strip measures 1.1 mgo magnetism compared to only 0.7 mgo for most conventional brands. That's over 50% greater holding power!

Plus we apply our own high-quality adhesive system to the strip back, making this product a truly outstanding performer for any display, exhibition or tradeshow application.

LocMag magnetic strip is available as 30 metre rolls in 12.7 mm and 25.4 mm widths, and in standard 1.6 mm thickness.

LocMag magnetic strip

Lockfast LocMag magnetic strip makes display and exhibit setup a snap

Easy display and exhibit setup

Competitive pricing of this quality product helps assure the high value of your exhibit system. The magnetic strips are evenly multi-pole magnetized on one face to produce excellent holding power on metal surfaces. Superior flexibility holds secure to uneven steel surfaces. Easily cut the strip with scissors or utility knives. Use LocMag magnetic strip from Lockfast as your most reliable panel connection to the exhibit frame.

Try These Other Fine Lockfast Fastener Products

- **Durable fabrics** – ideal for displays, exhibits, partitions, bulletin boards, wall coverings, museums, and more
- **Opaljet printable film media** – growing family of revolutionary inkjet media for large-format display and sign applications
